

Prefabricated Solid Walls

Removable Wall Panels

Integrated solutions with removable panels provide direct access to the wall cavities, allowing maintenance teams to service electrical and plumbing components without demolition.

Integrated Acoustical Performance

Recycled denim insulation offers sustainable, high acoustic rating, up to 58 RwdB.

Simple Architectural Connections

Bespoke manufactured solutions designed to fit precisely with any existing base building conditions.

Collection

150mm Solid Walls
100mm Solid Walls
50mm Wall Lining

Finishes

Bespoke finishes and graphics are pre-applied, with modules arriving fully finished for rapid installation.

Integrations

Take the system further by integrating technology, graphics, writable surfaces, casework, and more.
